

## **LMHI 2025 WORLD CONGRESS**

### **BIOGRAPHY**

#### **CHRISTIEN KLEIN-LAANSMA**

Before I started to learn and practice homeopathy, I worked as a doctor in a psychiatric hospital and as a medical teacher. After my homeopathic training, I practiced homeopathic medicine for 25 years and retired from practice in 2019.

Since 2007 I participated in a series of clinical research projects on (semi)individualised homeopathic treatment of women with premenstrual disorders, in collaboration with the Louis Bolk Institute, Bunnik, the Netherlands, and other organisations. Results were published in various international scientific journals, such as Homeopathy, the Journal of Alternative (now: Integrative) and Complementary Medicine, and Complementary Medicine Research. I live in Oosterbeek, the Netherlands.
